few days, and commence to fade away, even

if it seems past cure. Ordinary pimples,

redness, blotches, scurf, roughness, vanish

as if by magic; whilst old, enduring skin

disorders, that have plagued the sufferers

for years, however deeply rooted they may

be, "Sulpholine" will successfully attack

them. It destroys the animalcula which

cause these unsightly, irritable, painful

affections, and always produces a clear,

healthy, natural condition of the skin

> THE annual meeting of the trustees and subscribers to the Chinese Hospital, Shanghai, was held on the 27th ult. The report and accounts of the hospital were passed unanimously as printed. The Rev. W. Muirhead gave some account of the labours of the late Rev. Dr. Hobson, and Dr. Osgood, who had published some valuable Medical Works in Chinese, and strongly advocated the formation of a class of Chinese students. Dr. Johnston remarked that it would be exceedingly difficult to establish such a class, and said that the generality of Chinese hospital students were very unreliable. Dr. Henderson pointed out the difficulties in the way of teaching Chinese medical students in China, and thought the only plan was to send them to America or England. After the usual

formality the meeting adjourned.

The causes which induced these changes have been lately set forth in a characteristic sketch of the Marquis in one of the "Society" organs. Relative to Sir John's chances of obtaining a Lieutenant-Governorship or Commissionership, they are simply nil—these appointments being the special preserves of the Indian Civil Service. To dispel any hopes that the friends of our Governor may entertain on this head, it may be well to state that the three vacant Lieutenant-Governorships -each worth £10,000 a year-have all been just filled by Civil Servants-viz., Punjab, by Sir Charles Aitchison, K.C.S.I.; North-West Provinces and Oudh, by Sir Alfred Comyus Lyall, K.C.B.; and Bengal by the Honourable Rivers Thomson, C.S.I., C.I.E. The Chief Commissionership of the Andamans and Nicabars will be shortly vacant, for which outsiders are eligible-the appointment being in the gift of the Viceroy; but a penal settlement could hardly afford scope for the exercise of Sir John Pope Hennessy's great abilities and varied talents.

An inquest was hold this afternoon at the Government Civil Hospital, before the Coroner, H. E. Wodehouse, Esq., and the following gentlemen as jurors: -Messrs W. M. Morgan, F. A. C. Hahn, and E. L. Ozorio, regarding the death of Kwok Achim, married woman. The evidence given was to the offect that the deceased had had a quarrel about the cooking of some sweet potatoes with her mother-in-law on the 30th inst. (Next morning she left the house at six o'clock, and returned about eight, going to her own room. About ten o'clock the mother-in-law went to call the deceased to breakfast, "but receiving no roply she entered the room, where she found the deceased lying on the bed with a bed quilt over her, and a cup containing prepared opium beside the bed. The deceased was insensible and remained in that condition until between three and four o'clock of that afternoon, when she died, although a quantity of assafeetida and duck's blood, the remedy which the Chinese usually apply in a case of opium poisoning, had been given her. The father of the deceased gave it as his opinion that she had committed suicide because her husband had a concubine, but other witnesses stated that the doceased and the concubine and the other occupants of the house were on the most friendly terms. The Jury returned a verdict of felo de se.

On examination, the women gave answers which seemed to be satisfactory, and the whole of the evidence looked to be in the females' favour. On the question of the genuineness of the papers, United States Attorney Tears remarked that some of the papers were improperly filled up, when Captain Roper said he did not think "Consul Mosby was to blame; and thought the fault was with his clerks, who neglected to fill up the papers correctly. It was a loose way of doing business." Judge Hunt, however, declined to make any order of release, and left the case as it stood. It will be Before H. E. LA PAVORITA!" AT THE CITY HALL THEATRE If ever a "fair benificiaire" had cause to be satisfied with a generous and approxistive public such as was assembled at the theatre last evening, it was Signora Silini, the accomplished contralto of the Opera Company, who at the request of many presented Donizetti's "Favorita" for her benefit night. We have not seen a larger audience

The grand trio from Verdi's "I Lombardi" (considered to be the finest music in the whole piece) an opera nowadays very seldom put upon the stage, was sung between the third and fourth acts. Signora Silini as Giselda; Signor Ciocci, as the Templar; and Signor Vanzetti as Elena's lover Oronte, the Crusader, were quite equal to their respective parts; and the trio was an unqualified success. This repetition of "La Favorita" was certainly one of the finest performances of the kind we have had in this Colony:

SHANGHAI RACES.

THIRD DAY, Wednesday, May 3. The weather was rainy, and great hopes were naturally placed on Wild Dash as winner of the Champion Sweepstakes,indeed, this event was set down here as a certainty for Mr Kerfoot's "Wild" stable. Tajmahal, however, with Bidwell up, won easily, Wild Dash second. So that Mr Paul is to be again congratulated upon his good fortune; while it is not to be overlooked that the first and second ponics of this race, as well as the Shanghai Stakes and the Cathay Cup on the previous days, are owned by the same two Hongkong stables. We may add that this last win by the game Tajmahal is the eighteenth race and the third Champions he has won.

esterday afternoon received the following etter from Engineer Melville : Yakutsk, Jan. 10.—Sir: I have the honor to submit the following plan for the search for the missing people of both boats, also a schedule of provision and list of outlits and other articles necessary for six months and if compelled to remain at the Lena delta for the river to freeze over before being able to return to Yakutsk, the supplies will have to be duplicated by the Russian authorities at Yakutsk. It may be well to state at this time that all the supplies used at Belun or Long delta are carried on pack horses or deer sleds for a distarce of 2,000 verts, and travel from Belun to Yakutskis only practicable in the winter time; therefore it may be possible that we may be obliged to remain at or near Belun until November 18, 1882. The search will be carried on by three parties as follows: I propose to establish a depot at Belun for all supplies. The center of operations will be at Two Crosses, near Mount Jai : one party to go as far north as Sister Anke and back to Two Crosses; one party to work south half-way to Bulcour. and one party to work from Bulcour north to Two Crosses. These three parties should be able to search the whole of the country between Sister Anke and Bulcour, and in twenty days after leaving the deput of sunplies. This search being completed, the depot will be moved to Cath Contecie, between Sister Anke and Zernvina; one party then to follow the southern and western branches of the Lena as far as the River Manak the second party to follow the north-western branch of the Lena and work up towards Upper Belun; the third party to work from Upper Belun, on the northwest coast, southwest to meet the second party. This will complete the search for Licutenants De Long and Chipp as far west

as Inner Alonek. This being completed, I will establish a depot at Provarania, No. 6 : two parties to start from Provarania. and one party to follow the coast line east and west until they meet, both returning across the country to Provarania. I will then establish a depot for Provarania at No. 18: one party to entirely circumscribe the southern portion of the country from No. 18—the first southeast, then north, turning southwest, then turning east, back to Provarania—two other parties to search the coast as far as Barkin, and west as far as the branch leading southwest to Usterda.

the wants of many students of Chinese Queries on China and Japan," has reached to time such items of information, lists, its Tenth Volume. The Review discusses tables and other intelligence as is conthose topics which are uppermost in the sidered likely to prove valuable to perminds of students of the "Far East" and sons passing through the City, and about which every intelligent person con- in connection with we have opened nected with China or Japan is desirous of acquiring trustworthy information. It includes many interesting Notes and original Papers on the Arts, Sciences, Ethnology, Folklore, Geography, History, Literature, Mythology, Natural History, Antiquities, and Social Manners and Customs, etc., etc. of China, Japan, Mongolia, Tibet, and the Far East generally. Recently a new departure has been taken, and the Review now gives papers on Trade, Commorce, and Descriptive notes of Travel by well-known writers. It was thought that by extending the scope of the Review in this direction, the Magazine would be made more generally

useful. The Review department receives special attention, and endeavours are made to present a careful and concise record of Literature on China etc., and to give critiques embodying sketches of the Most recent works on such topics. Authors and Publishers are requested to forward works to "Editor, China Review, care of China

"All, our learned societies should subscribe to this scholarly and enterprising Review."-Northern Christian Advocate (U.S.) "The China Review * * * * has an excellent table of contents." - Celestial Empire. "The Publicational ways contains subjects of interest to sojonmers in the Far East and the present issue will hold favourable if not advantageous comparison, with preceding numbers." -- Celestial Empire.

"This number contains several articles of interest and value."-North-China Herield "The present number of this periodical, * * * * onens with a review of the Foreign Trade of China during 1880. This is rather a new departure for a publication which professes to be purely literary; but considering the comparatively small circulation it enjoys at present among the commercial communities of China, we hail the innovation as likely to recommend the Review to the notice of those who take an interest in few matters beyond mercantile pursuits."---North-China Herald.

"The China Review for September-October fully maintains the high standard of excellence which characterises that publication, and altogether forms a very interesting and readable number. Meteorologists will find an interesting and valuable contribution by Dr. Fritsche, on "the Amount of Precipitation (Rain and Snow) of Peking," showing the results of observations made at the Imperial Russian Observatory at Peking, from 1841 to 1880. "Notes on the Datch Occupation of Formosa," by Mr. Geo. Phillips, contains some interesting information, although much of it is second-hand. The Notices of New Books include a most generous and appreciative review of "The Divine Classic of Nan-Hua," and the Notes and Queries are as usual very interesting."—North-China Daily News.

all students of China and the Chinese would do well to patronise."-Chrysanthemum. "The November-December number of the China Review contains less variety than usual, but the few articles are very interesting. The opening paper by Mr Herbert A. Giles on "The New Testament in Chinese" treats of a question that must necessarily be of great importance in the eyes of all missionaries. . . . Mr E. H. Parker's "Short Journeys in Szechuen" are continued, and a goodly instalment of these travels in the interior of China is given. Mr F. H. Balfour contributes a paper of some length entitled "The Emperor Cheng, founder of the Chinese Empire," which will be read with genuine interest by students of Chinese history. A few short notices of New Books and a number of Notes and Queries, one of which "On Chinese Onths in Western Borneo and Java" might appropriately have been placed under a separate heading, complete the number."—H.K. Daily Press.

Trubner's Oriental Record contains the following notice of the China Review: The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of atupon the investigation of Chinese literature, - ation, rendering some such channel of publicity as is now provided extremely desirable; and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors . . . Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh contury, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that .. Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was cossor in the field, and that the China Review may receive the support necessary to insure its continuance.

We have instituted as an experiment a Visitors' Column, which we trust TTHIS Review, which was intended to meet will prove successful, and be found useful. To it will be relegated from time DIRECTORY, applications for enrolment Chinese Ins. Co. 1,500 \$ into which we are now ready to receive.
